## OBJECTIVE

I started coding at a young age, I developed simple websites with JS and I loved it and then started App Development in ~2018 And I was hooked. I have been coding Android Apps ever since.

# WAQAS TAHIR

## EXPERIENCE

I have developed apps on my own that are available at Play Store. I am quite familiar with technical libraries / frameworks used in development , I just lack experience working in a team.

I have made these apps available on Google [Play Store Profile](#)

- **Timeline** (Notes, Mind Maps, Reminders, Drawings App)
- **Mehndi Designs 2022** (User submitted mehndi designs, photos and art is categorized and collected)
- **Sketchable** (Create Drawings & Sketches on Canvas)
- **SimpleScanner** (Scan documents using OpenCV and convert to PDF)
- **PDFReader** (Read & Annotate documents using MuPDF library)
- **MindNode** (Create mind maps & export to PDF)

I have also developed apps as a freelancer on Fiverr.

- **Family Location** (location of family members is shared with family)
- **Photo Editor** (Import photos from Camera/Gallery and Edit them with custom filters and apply Style Transfer)

## SKILLS AND ABILITIES

**Android** – Kotlin, Dagger/Hilt, Room/SQL Delight, MVVM, Kotlin Multiplatform, Jetpack Compose, Retrofit/Ktor, Material Design

**Web** – Typescript , React , Golang , made several web apps & websites using Gatsby

## EDUCATION

**Superior College, Sargodha, Pakistan**

- FSC Pre-Engineering from superior college Sargodha in Pakistan.
